# NAGOR™

Powered by:  GC Aesthetics™

**Founded in 1979, Nagor™ is the only British company dedicated to the specialist design, manufacture and supply of high quality breast implants and related medical devices.**

Nagor's commitment to quality is demonstrated by ongoing research and development with investment in manufacturing processes, supported by the most demanding quality control management.

Nagor's products are manufactured under a quality management system in accordance with EN ISO 13485 and products intended for sale in Europe are CE certified according to the applicable European medical device regulations.

All dimensions and weights are approximate and slight variations may occur between the product catalogue and the product label.

## Providing choices for every patient

GC Aesthetics™ is a leading medical aesthetics company with over three decades of experience manufacturing silicone implants through our brands Nagor® and Eurosilicone®. Thousands of patients worldwide have used our products.

We work in partnership with the medical community to continually develop high quality products and services that meet both the surgeon's and the patient's needs. As a global leader in the female aesthetics industry, GC Aesthetics not only provides products across our Eurosilicone® and Nagor® brands, but also delivers qualified information to help patient's make informed choices.

All dimensions and weights are approximate and slight variations may occur between the value stated in the product catalogue and the actual dimensions and/or weight of the product.
